

**REMARKS/ARGUMENTS**

The above-identified application has been allowed, by Notice of Allowance dated October 23, 2007. Applicants have received a Notice Of Drawing Inconsistency With Specification dated November 30, 2007. According to the Notice, an inconsistency is said to exist between the drawings and the brief description of the drawings in the specification. More specifically, Fig.7E contained in the drawings is not listed in the brief description of the drawings in the specification. Applicant is given a one month or thirty (30) days from the November 30, 2007 mailing date of the notice to correct this.

In response, Applicant is amending the specification to add a new paragraph on page 8 of the specification describing Fig.7E of the drawing. More specifically, the new paragraph being inserted in the specification states -- Fig. 7E is a timing chart concerning a clamp mode signal -- . Consequently, Fig. 7E is now listed in the brief description of the drawings in the specification.

Inasmuch as this amendment is being made in response to the Notice Of Drawing Inconsistency With Specification, it is appropriate and approval thereof is respectfully requested.
